[LinkedIn](#) [Portfolio](#)

UX Researcher and Designer with 2+ years of experience conducting end-to-end qualitative and quantitative research to inform product and business decisions. Experienced in evaluating AI-powered and workflow-based internal tools, translating user insights into clear recommendations, and partnering closely with designers, PMs, and engineers in fast-paced environments. Strong communicator with a track record of influencing product direction through evidence-based insights.

WORK EXPERIENCE

UX Researcher, NCR Voyix [Restaurant Tech]

Atlanta, GA **June 2025 - Present**

- Plan and conduct user interviews, customer feedback groups, usability studies, quantitative research, and competitive analyses to improve experiences for restaurant operators and guests.
- Evaluate complex workflows through heuristic reviews and user testing, identifying friction points and opportunities to improve efficiency, clarity, and decision-making.
- Partner with product, design, marketing, and sales teams to translate research findings into actionable recommendations across three product lines.
- Build AI-assisted research and design workflows using Figma MCP, Atlassian MCP, agentic Figma plugins, and VS Code to organize insights by priority and turn findings into early design concepts.

UX Designer, Department of Undergraduate Education, IU [Communications]

Indianapolis, IN **July 2024 - June 2025**

- Designed and tested 25+ prototypes and wireframes in the consolidation project for the [University College](#) website, optimizing navigation and design agility and constructed 18 pages on WCMS.
- Iterate on 27 websites to resolve UX and content issues and execute email campaigns, improving digital engagement of the client sites by 20%.
- Audit of 31 client websites to ensure AA WCAG compliance and maintain a QA score of 95 on Siteimprove.
- Led research-informed design of a staff recognition platform adopted by 200+ users in the first month, contributing to a 15% increase in morale scores.

UX Research Intern, [Vosyn](#) [Artificial Intelligence]

Chicago, IL **June 2024 - October 2024**

- Led rapid research sprints on AI-powered features, contributing to 3 feature integrations and a 40% increase in feature engagement.
- Reduced onboarding friction by redesigning key flows, lowering cognitive load and error rates by 18% based on usability testing.
- Developed third-party app integration flows, expanding platform functionality and interoperability, broadening the product's reach.
- Partnered with strategy teams to embed 5 multilingual & accessibility features, improving WCAG compliance by 12%.

UX Designer, Hummingbird Web Solutions Pvt Ltd [B2B, E-Commerce]

Pune, India **January 2023 - July 2023**

- Built 2 website templates for Edtech and healthcare clients, generating revenue worth 8% of the business share.
- Facilitated UX/UI audits for 6 client websites, reducing bounce rates by 12% and elevating user satisfaction through client-centric design. Subsequently redesigned 5+ mobile and tablet interfaces for each client.
- Collaborated with marketing, product, and engineering teams to optimize SEO strategies and redesign 8 landing pages of in-house products, driving a 26% increase in organic traffic and user engagement.

EDUCATION

Indiana University Luddy School of Informatics, Computing, and Engineering

Indianapolis, IN **May 2025**

Master of Science in Human-Computer Interaction

University of Mumbai- Datta Meghe College of Engineering

Mumbai, India **May 2022**
